EDUCATION

Vellore Institute of Technology (VIT)

Integrated M.Tech in Computer Science & Engineering (Cyber Security)

Sep 2022 – Sep 2027

CGPA: 8.77 / 10.0

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Operating Systems, Computer Networks, Cryptography, Network Security.

Kendriya Vidyalaya No. 2 NSB Visakhapatnam

Higher Secondary School Certificate (Class XII)

2021

Grade: 87.6%

TECHNICAL SKILLS

Programming & Scripting: C++, Python, JavaScript, TypeScript, SQL, HTML

Frameworks & Libraries: Next.js, React.js, Node.js, FastAPI, Tailwind CSS, Scikit-learn

Databases & Cloud: MySQL, MongoDB, PostgreSQL, Supabase, AWS

Development Tools: Git, GitHub, Docker, Postman, Recharts

Cybersecurity: Linux, Nmap, Wireshark, Metasploit, Burp Suite, OWASP Top 10, Cryptography

INTERNSHIP EXPERIENCE

Cybersecurity Compliance & Web Engineering Intern

Apr 2025 – Jun 2025

Cyber Jagrithi Foundation, Remote

- Engineered 8+ cybersecurity-focused web applications addressing cyber crime awareness and compliance frameworks, expanding digital safety outreach to 3,000+ users via React.js and Node.js.
- Orchestrated cross-functional collaboration within a 6-member development team to design responsive interfaces for cybersecurity education platforms, accelerating project delivery by 40% through agile methodologies.
- Developed legal compliance modules integrating cyber law requirements across 5+ web applications, streamlining audit processes by 45% through AI-driven validation systems.

PROJECTS

BEAT-WELL – AI-Powered Heart Disease Prediction Platform

Apr 2025

Technologies: Next.js, FastAPI, Python, Tailwind CSS, Scikit-learn, AWS | [Live Demo](#)

- Architected a full-stack health analytics platform leveraging ML models to predict cardiovascular disease risk across 8+ vitals including blood pressure and BMI, achieving 85% prediction accuracy.
- Implemented secure authentication, real-time BMI and blood pressure categorization for 6+ health metrics, and an integrated medical chatbot handling real-time user queries.
- Optimized database queries and caching strategies, reducing page load time by 39% (2.3s to 1.4s) while sustaining concurrent multi-user sessions.

Tracklet – Automated Online Price Tracker

Dec 2025

Technologies: Next.js, TypeScript, Firecrawl, Supabase (PostgreSQL), Tailwind CSS, Resend | [Live Demo](#)

- Built a real-time price monitoring system tracking 50+ products across multiple e-commerce platforms in real time, eliminating the need for manual price verification.
- Engineered a scheduled data pipeline processing 200+ daily price updates and persisting 30-day historical records, enabling trend-based purchasing decisions.
- Integrated trigger-based email alert pipelines notifying 100+ users upon price drops of 15% or more, reducing manual monitoring effort by 90%.

CERTIFICATIONS

- Google IT Support Professional – Computer Networking, Coursera (2023) [Link](#)
- Databases and SQL for Data Science – IBM (2025) [Link](#)
- AWS Certified Cloud Practitioner – Amazon Web Services (2026) [Link](#)

ACHIEVEMENTS & AWARDS

- National Cadet Corps (NCC) ‘A’ Certificate** – Awarded ‘A’ Grade, recognizing disciplined performance and leadership during school years.
- State Level Social Science Exhibition** – Selected as 2x participant, representing school-level research at the state stage.
- KVS Regional Sports Championship – Cricket** – Competed at the regional level, demonstrating teamwork and athletic excellence.
